ABOUT US

Manchester Universal Academy (MUA) is an independent international academy exclusively involved in Online and Distance Learning education. Online and distance learning is the future of education. Even though we live in a global village the concept of a global academy – not rooted in a particular country – such as MUA – is occasionally misunderstood by the dinosaurs of brick and mortar education especially in countries where online education is still a novelty. Our main emphasis has always been to offer the highest quality of education to our students. You'll need a computer for regular and reliable access to the internet so that you can have easy communication with your personal supervisor. Having an email is essential as it is your means of communicating with your supervisor and so that we can send you important information relevant to your studies. You will be required to write several reports which will form the course exams for your online learning program. After you submit all the required reports, you will complete the distance learning education program.
